

County Durham Care Academy – Virtual Workplace Tour Resource

Overview of the tour

County Durham Care Academy supports the development of a well-led, skilled, and valued adult care workforce in County Durham. They offer a range of courses from entry level right through to senior leadership and management qualifications. This 360-workplace tour gives you the opportunity to navigate your way around a Health and Social Care setting at your leisure without having to take a step through the door. As you take the tour you will meet a wide range of employees who will describe their current job roles and how their career pathways have developed. The employees will also give you an insight into the potential opportunities within the organisation as well as the importance of English and maths in their day-to-day roles. As you navigate from room to room you will have the opportunity to see what a range of Health and Social Care settings look like and the equipment that is used. You can also click on some of the television screens in each of the rooms to hear additional information.
