

HOW TO FIND AN APPRENTICESHIP IN THE NORTH EAST OF ENGLAND

Step-By-Step Checklist

Apprenticeships can be advertised all year round, so keep checking often - new opportunities appear every week.

STEP 1: DECIDE WHAT YOU'RE INTERESTED IN

Think about the type of job or industry you want to explore (for example: engineering, healthcare, construction, digital, business, or hair and beauty). This will help you search more effectively.

STEP 2: SEARCH THE NATIONAL APPRENTICESHIP WEBSITE

Go to the official [**GOV.UK**](https://www.gov.uk/apprenticeships) apprenticeship search tool and:

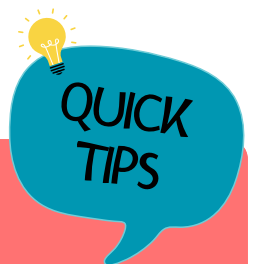

- Enter your postcode (to find opportunities in the North East)
- Use keywords like "engineering", "healthcare", or "business"
- Filter by location, level, and job type
- Save any roles you like

STEP 3: CHECK EMPLOYER WEBSITES

Look directly on company websites for apprenticeship vacancies, especially:

- Local councils
- NHS trusts and hospitals
- Large employers in your chosen industry
- Big national companies with offices in the North East
- Small and medium size businesses specialising in the area you would like to work in

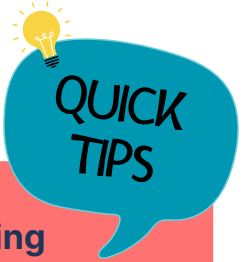

Check the "Careers" or "Jobs" section regularly.

STEP 4: EXPLORE LOCAL TRAINING PROVIDERS

Visit websites of colleges and apprenticeship providers in your area. They often:

- Advertise vacancies with local employers
- Offer apprenticeship programmes directly
- Provide support with applications

Some training providers will be looking for you to find an employer looking for your apprenticeship training.

STEP 5: USE JOB BOARDS AND APPRENTICESHIP SITES

Search other trusted job websites such as:

- UCAS Apprenticeships
- Not Going to Uni
- Indeed or LinkedIn

This helps you find extra opportunities that may not be on GOV.UK.

STEP 6: GET SUPPORT FROM CAREERS ADVISERS

Speak to:

- Your school or college careers adviser
- The National Careers Service

They can help you with:

- Finding suitable apprenticeships
- Writing your CV and application
- Preparing for interviews

STEP 7: APPLY AND STAY CONSISTENT

- Apply to more than one apprenticeship to improve your chances
- Check for new vacancies regularly
- Keep your CV up to date and tailored to each role
