

An apprenticeship roadmap for North East Employers

Did you know that just under 50% of our 18-year-old population are registered on the 'Find an apprenticeship' platform, actively looking for an apprenticeship across the North east Combined Authority area?

Despite this surge in demand, the number of apprenticeship starts for young learners remains low, especially for those aged under 19, with less than 5,000 nationally at Level 4 and above.*

Particularly in the North East, demand is outstripping supply, leaving many students without vacancies aligned to their career aspirations.

However, there's hope on the horizon! North East businesses have a golden opportunity to tap into free apprenticeship support.

We've collated the most up-to-date financial and local provision available to help you recruit an apprentice successfully.

Unlock the potential of apprenticeships

Wherever you are on your apprenticeship journey - whether you're just starting to ponder the idea or already have apprentices on board - help is readily available.

There are free services available across the North east Combined Authority area providing:

- **Expert business to business advice** on apprenticeships;
- **Funding guidance** for employers of any size;
- **Free recruitment services** to help you with every stage of the apprenticeship process including advert creation, finding a training provider, advertising vacancies and matching you with the right apprentice.

What are the benefits?

If you're struggling with workforce and recruitment, talent acquisition or staff development then apprenticeships could be the perfect solution for you.

Fresh Talent

Inject innovation with apprentices bringing new perspectives.

Cost-Effective Development

Tailor talent while saving on recruitment costs.

Increased Productivity

Boost performance with rapidly skilled apprentices. Outputs usually surpass associated costs, e.g. one apprentice created ROI of 3000%, with cost savings of £69,000.

Future-Proofing

Secure adaptable talent, shielding from skill shortages.

Loyalty and Retention

Cultivate loyalty and retain top talent long-term.

Diversity Boost

Bridge gaps with apprentices from diverse backgrounds.

Government Support

Access financial incentives for businesses of all sizes.

Visit northeastambition.co.uk/business to discover how other businesses in the region are reaping the benefits of apprenticeships.

What funding is available?

Whether you're a big or small business, if you're hiring an apprentice, you can get help from the government to cover the costs of training. The amount you get depends on whether you pay the apprenticeship levy or not.

National Insurance Contributions Relief

Employers don't pay NI for 16-25-year-old apprenticeships up until they earn £50K.

Apprenticeship Levy

You pay the levy if you're an employer with a pay bill over £3 million. With the [apprenticeship service](#) you can manage funds for apprenticeship training, with a 10% government top-up and minimal costs if funds run low.

Levy Transfers

Levy-paying employers can transfer up to 50% of annual funds to support apprenticeship training for other employers, including smaller businesses.

Fully Funded for SME's

The government covers full training costs for apprentices in small businesses up to age 21.

Cash Incentives

Cash incentive grants for those aged 16-18 years (£1,000) and those leaving care (£3,000).

Streamlined Payments

Hassle-free funding directly to training providers, allowing focus on nurturing apprentice talent.

CITB Grants

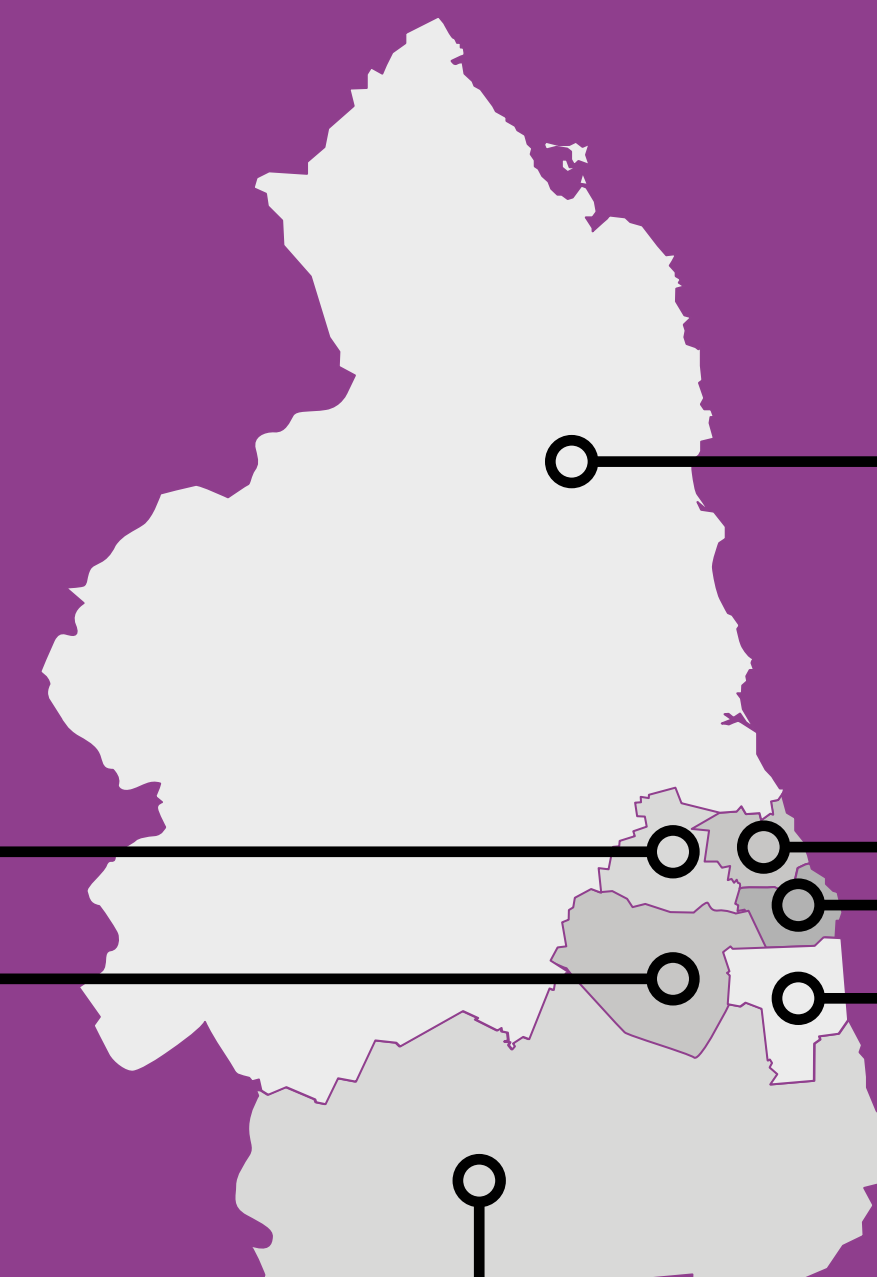

CITB provides grants for approved apprenticeship schemes focusing on core construction skills.
